from various points on the Musissippi river are passed by Ramszun's brigade: of quite a formidable character, and are calculated to awaken a deep solicitude in the public trative skill, and with such able adjuncts as FORREST and LEE in the cavalry service, we age just fied not only in the hope but in the conviction that he will prove himself able to meet all emergencies.

There is no doubt in our mind but that one object of the enemy is to reclaim as large a portion of the cotton growing region of Mississipp! as possible before the planting season sets in Toe latters of our correspondent with General FORKEST, are conclusive on this point. In crder to do this, our lines must be pushed buch | was made for three hundred thousand. from the river and east of the New Orleans and Northern and the Central Mississippi railroade. Cotton is really worth more to the Yanken; now than the gold mines of California, in the way of sustaining their ainking floaners, and they will make heronisan efforts to reclaim and cultivate the extensive fields configuous to the river. Nothing but experience, probably will teach them the folly and impracticability of such an enterprise. The expens of production under such a state of circumthe slave labor employed be paid for in green- tion paper. backs while the cotton is sold for gold; and mure especially when these Yankees will have such is the chief said and aim of the present Redered Compostrations in Mississippi, we are by the guard, and finally put off the train. sully persuaded.

Another purpose is in all probability to ill wart attention from the main object of General terroor, about No'clock, twenty eight personn—wheel among the latter of Bann Butler.
